### **Sercel Delivers Five 508<sup>XT</sup> Acquisition Systems to ONGC in India**

Sercel announced today the successful delivery of five of its state-of-the-art 508<sup>XT</sup> seismic acquisition systems to India's national oil company, ONGC.

ONGC selected Sercel's cross-technology (X-Tech<sup>®</sup>) solution to conduct various 3D surveys for a total of 40,000 channels across India in challenging environments, from jungle to steppe plain and even desert.

The specific challenges faced across these terrains make the 508<sup>XT</sup> system a natural choice. Sercel's renowned robust build quality ensures minimal downtime even when operating in the harshest conditions. The unique, fault-tolerant X-Tech architecture, which combines the benefits of cable and wireless systems in a single platform and features local storage and automatic rerouting capabilities, simplifies field operations and enables continuous, autonomous acquisition.

This delivery comes hot on the heels of twelve other Sercel 508<sup>XT</sup> systems sold in India in the past three years.

Pascal Rouiller, Sercel CEO, said: "We would like to thank ONGC for its confidence in the 508<sup>XT</sup> seismic acquisition system. Sercel's excellent reputation has led to many sales, particularly in India, over the last few years. With over 72,000 508<sup>XT</sup> channels deployed in the country, the Sercel 508<sup>XT</sup> has established itself as the system of choice to conduct high-performance seismic acquisition surveys."

### **About Sercel**

Sercel is the world's leading designer and manufacturer of innovative seismic equipment and reservoir monitoring instruments. Sercel provides oil field service companies and geophysical contractors with the widest range of leading-edge technologies for exploration in land, marine, ocean bottom, transition zone and reservoir environments. Employing more than 1,500 people worldwide, Sercel's main sales offices are located in Houston (USA) and Nantes (France). More information about Sercel is available at [www.sercel.com](http://www.sercel.com)
